SUMMARY

Computer Science and Engineering (AI/ML & Cloud Computing) undergraduate at Swami Vivekananda University focused on building responsive **frontend interfaces**, scalable **backend architectures**, **full-stack web applications**, and applied AI solutions that solve real-world civic, e-commerce, and industrial problems. Completed comprehensive frontend training in **HTML5, CSS3, and JavaScript (ES6+)** alongside **React.js, Tailwind CSS, Python, Java, C++, Node.js, Express.js, and SQL/SQLite**, backed by a strong foundation in Data Structures and Algorithms (DSA) and RESTful API engineering. Experienced in shipping end-to-end systems—including **CivicPulse** (geospatial municipal issue tracker), **AI Social Media / Orbyt** (polyglot AI social network), **MDR Validator** (data validation engine hosted on GitHub), and **ShopDesk AI** (agentic customer support)—while leading hackathon teams (ORBION, Schneider Electric Yuva Yodha, BHARAT AGENTIC 2026) and advancing cloud/geospatial skills via the **Google Cloud Career Launchpad**, **IICT AI Skills House**, and **ISRO's IIRS**.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering (AI/ML & Cloud Computing)
Swami Vivekananda University • Kolkata, West Bengal, India — July 2026 – July 2030 (1st Year, Semester 1)

- Coursework & Communities: Data Structures & Algorithms (DSA), OOP, Frontend & Full-Stack Web Development (HTML, CSS, JavaScript), AI/ML, Cloud Computing; Member, Developer Student Club (DSC) CUSIT Powered by Google Developers.

Higher Secondary (Class XII, CBSE – PCM Science)
JRS Public School & Satish Chandra Memorial School • West Bengal, India — April 2025 – May 2026

- Completed senior secondary education in Physics, Chemistry, and Mathematics; appeared in national/state engineering entrance exams including JEE Main, WBJEE, COMEDK UGET, VITEEE, SRMJEEE, KIITEE, Scaler NSET, and IISER IAT (2026).

Secondary (Class X, CBSE)
Satish Chandra Memorial School • West Bengal, India — April 2023 – May 2024

TECHNICAL & CERTIFICATION-LEVEL SKILLS

Programming Languages: Python, Java, JavaScript (ES6+), C++, SQL, HTML5, CSS3

Frontend Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, DOM Manipulation, Responsive & Mobile-First UI Design

Full-Stack & Backend Dev: Node.js, Express.js, RESTful APIs, Microservices Architecture, SQLite (`social.db`, `orbyt.db`), Supabase (PostgreSQL), BigQuery

Applied AI & Geospatial ML: Generative & Agentic AI, Multi-Agent Ideation, Deep Research Agents, Image Classification, Geodata ML (ISRO-IIRS), Leaflet.js, Mappls APIs, Prompt Engineering, NotebookLM

Cloud & DevOps (GCP Verified): Google Cloud Platform (Compute Engine VMs, Persistent Disks, Cloud IAM, Service Accounts, Custom YAML Roles, `gcloud` CLI), Cloud Security, Render, Git, GitHub, VS Code

Data Validation, DSA & Soft Skills: YAML Schema Mapping, Data Normalization & Validation Pipelines, Data Structures & Algorithms (DSA), OOP, Automated Testing, Hackathon Team Leadership; English, Bengali, Hindi

TECHNICAL PROJECTS

CivicPulse — Hyperlocal Municipal Issue Tracker & Geospatial Routing Platform
Portfolio Demo: priyanshubhatta.netlify.app | GitHub: github.com/Priyanshu568

- Frontend (React.js, Tailwind CSS, HTML5/CSS3, JavaScript) & Backend (Node.js, Express.js, REST APIs, Leaflet.js / Mappls, Image Classification) |
- Architected a mobile-first hyperlocal public issue tracking and routing web application with a responsive React and Tailwind CSS frontend to streamline community infrastructure reporting.
- Integrated Leaflet.js and Mappls geospatial mapping services with automated image classification and Node.js/Express.js REST APIs to verify uploaded photographs and route geotagged civic complaints.

AI Social Media (Orbyt) — Polyglot AI-Powered Social Networking Application
LinkedIn: linkedin.com/in/priyanshubhatta69 | GitHub: github.com/Priyanshu568

- Frontend (HTML5, CSS3, JavaScript) & Backend (Python, C++, Java, SQLite: `social.db`, `orbyt.db`) |
- Engineered a multi-language AI social platform combining an interactive HTML5, CSS3, and JavaScript web frontend (`www/`) with a Python backend (`main.py`) and dual relational SQLite databases (`social.db`, `orbyt.db`).
- Built a high-speed C++ microservice (`moderate.cpp`) for real-time automated content moderation and a Java recommendation engine (`Suggest.java`) for personalized user and feed suggestions.

MDR Validator (mdr_validator) — Configuration-Driven Master Data Validation Engine

LinkedIn: linkedin.com/in/priyanshubhatta69 | GitHub Repo: github.com/Priyanshu568 (mdr_validator)

- Python, YAML Configuration (`settings.yaml`, `mappings.yaml`), UI Reading, Database Models, Automated Testing |
- Developed an extensible Python data validation engine (`mdr_validator` repository on GitHub: github.com/Priyanshu568) governed by declarative YAML configuration and schema mapping definitions (`settings.yaml`, `mappings.yaml`) to enforce data integrity across heterogeneous sources.
- Implemented core `mdr` modules covering data normalizers, UI readers, mapping repositories, rule validation logic, engine processing, multi-source connectors, admin utilities, automated reporting, and unit tests.

ShopDesk AI — Agentic E-Commerce Customer Support & Escalation System

Devpost Project | LinkedIn: linkedin.com/in/priyanshubhatta69 | GitHub: github.com/Priyanshu568

- Agentic AI, Full-Stack Web UI (HTML/CSS/JS), Python, Node.js, LLM APIs |
- Built and shipped an autonomous e-commerce customer support platform for the *Build, Ship, Shape: Amazon Developer Hackathon* on Devpost featuring automated inquiry resolution and context-preserving human-agent escalation.

AI Energy Copilot — Smart Electricity Bill Analyzer & Consumption Predictor

Schneider Electric Yuva Yodha Submission | LinkedIn: linkedin.com/in/priyanshubhatta69 | GitHub: github.com/Priyanshu568

- Applied AI, Predictive Analytics, Python, Web Dashboard (HTML/CSS/JS) |
- Designed an AI energy management tool for Schneider Electric's Yuva Yodha challenge that parses uploaded electricity bills to generate itemized consumption breakdowns, next-month usage forecasts, and conservation tips.

HACKATHONS, LEADERSHIP & EXPERIENCE

Team Leader — ORBION: 8-Hour Hackathon (Tech Kurukshetra '26)

Institute of Engineering and Management (IEM), Kolkata (via Unstop) September 2026 – October 2026

- Recruited and led a cross-functional student engineering team during IEM Kolkata's intensive 8-hour hackathon, directing problem formulation, frontend/backend system design, rapid prototyping, and technical pitch deck delivery.

Innovator — Yuva Yodha Energy Tech Hackathon 2026

Schneider Electric (Hosted on YouNoodle) September 2026 – October 2026

- Architected and submitted the **AI Energy Copilot** proposal for Schneider Electric's national sustainability competition, targeting household energy literacy and predictive load management.

Participant — BHARAT AGENTIC 2026 & Amazon Developer Hackathon / PromptWars Virtual

AIKart, Devpost & Hack2Skill October 2026

- Competed in the 12-hour *BHARAT AGENTIC 2026* AI agent hackathon (*Understand → Reason → Plan → Use Tools → Act → Deliver*), shipped **ShopDesk AI** on Devpost, and competed in Hack2Skill's *PromptWars Virtual*.

Student Campus Promoter (Internshala Student Partner) & DSC CUSIT Member

Internshala Trainings & Developer Student Club CUSIT (Powered by Google Developers) August 2026 – Present, Kolkata, West Bengal, India

- Selected to represent Internshala on campus to mentor peers on technical internships and Full-Stack Web Development (HTML, CSS, JavaScript, React, Node.js) with AI; active contributor in GDG on Campus and Google Cloud Learn with Communities.

CERTIFICATIONS, VERIFIED SKILL BADGES & NATIONAL PROGRAMS

- **Configure Service Accounts and IAM Roles for Google Cloud (Skill Badge — 100% Challenge Lab Score)** — *Google Cloud / Credly* (Oct 2026). Demonstrated mastery of GCP service accounts, custom YAML IAM roles, BigQuery Python client authentication, and `gcloud` CLI policy bindings (Verify Badge).
- **The Basics of Google Cloud Compute (Skill Badge — 100% Challenge Lab Score)** — *Google Cloud / Credly* (Oct 2026). Verified hands-on competence in provisioning Compute Engine virtual machines (VMs), persistent disks, and cloud web servers (Verify Badge).
- **Create Your First Gemini Enterprise Application (Skill Badge)** — *Google Cloud / Credly* (Oct 2026). Validated skills in building deep research agents, multi-agent ideation workflows, and focused analysis using Gemini Enterprise and NotebookLM (Verify Badge).
- **Maximize Productivity With AI Tools & Introduction to AI (Google AI Essentials Specialization)** — *Google & Coursera* (Oct 2026). Completed official Google certifications in generative AI fundamentals, LLM prompting frameworks, and workplace AI productivity (Coursera Certificates).
- **AI/ML for Geodata Analysis (Online Training Programme)** — *Indian Institute of Remote Sensing (IIRS), ISRO Dehradun* (July 2026, Reg. No. `20261883026394`). Selected for ISRO's specialized distance learning programme on machine learning for satellite remote sensing and geospatial data (IIRS-ISRO Portal).
- **IICT AI Skills House (AISH) National Scholarship Programme** — *Indian Institute of Creative Technologies (Ministry of I&B, Govt. of India), Google & YouTube* (Aug 2026, ID: `IICT-16082662223`). Selected for the 4-module dual-platform curriculum covering AI Essentials, Google Prompting Essentials, Introduction to Generative AI, and Generative AI Leader (IICT).
- **Google Cloud Career Launchpad (APAC) & Google Cloud Learn with Communities** — *Google Cloud* (Aug – Oct 2026). Completing hands-on tracks in Cloud Computing, Cloud Security, Application Modernization with Generative AI, and Data Workflows (Google Skills Profile).
- **Gemini Quizwar 2026 & National Youth Certifications** — Awarded Certificate of Participation in *Gemini Quizwar 2026* by Devengers/Unstop (6,300+ participants; shortlisted for *Shinchan Online Hackathon 2026*, Certificate), plus *Viksit Bharat Young Leaders Dialogue (VBYLD) 2027* and *TB Mukt Bharat Abhiyan Quiz* certificates from the Ministry of Youth Affairs & Sports (MYBharat, Sept 2026).
